No retraction

1. Direct Stop Technology

Bur stops in only one second

- Safety Plus – similar stop time like a high speed contra angle
- Better run down sound

Zero Retraction

- Better Hygiene due to no suck back of aerosol
- More durable, clean bearings and longer lifetime

2. Higher Power

- 23 Watt Power, over 20% more than GENTLEsilence
- 20 % more torque and force
- Stable and efficient cutting over different working pressures

3. Silence Technologie

- 57 dB(A) – Technologie from GENTLEsilence
- Sound design due to elimination of special frequencies
- Better run down sound

4. Perfect sight

- Smallest head height in the Premium Segment (13,1 mm); with 19 mm bur only 20,0 mm head height
- Head angle 100°/19° (KaVo patent)
- Better sight angle of 27° due to new smaller head design measured with a 19mm burr

5. Focused and glare free light

- Light and spray-direction are offset and so glarefree
- Light focused to the bur

6. Proven KaVo – Features

- Plasmatec surface – better grip
- Waterfilter, easy exchangeable by dentist – permanent spray
- Passive pressure regulation. TU pressure from 2,1-4,2 bar
- Bur retention force up to 32 N
- Tungsten carbide guiding bush
- Original KaVo ceramic bearings
- 24 month warranty
- Made in Germany

KaVo. Dental Excellence.
