Labelling according to regulation (EC) No 1272/2008 Hazard pictograms

neodisher Septo DN Print date: 14.04.22 Version: 4 / GB Replaces Version: 3 / GB Date revised: 13.04.2022 Aquatic Chronic 1 M = 1 Other information Complete text of hazard statements in chapter 16 **SECTION 4: First aid measures** 4.1. Description of first aid measures **General information** Remove contaminated, soaked clothing immediately and dispose of safely. Adhere to personal protective measures when giving first aid. Clean body thoroughly (bath, shower). In any case show the physician the Safety Data Sheet. After inhalation Ensure supply of fresh air. Remove affected person from danger area. Seek medical advice immediately. After skin contact Wash off immediately with soap and water. Seek medical advice immediately. After eye contact Separate eyelids, wash the eyes thoroughly with water (15 min.). Take medical treatment. After ingestion Call in a physician immediately and show him the Safety Data Sheet. Rinse mouth thoroughly with water. Let plenty of water be drunk in small gulps. Do not induce vomiting. Adhere to personal protective measures when giving first aid First aider: Pay attention to self-protection! 4.2. Most important symptoms and effects, both acute and delayed Until now no symptoms known so far. 4.3. Indication of any immediate medical attention and special treatment needed Hints for the physician / hazards In the case of swallowing with subsequent vomiting, aspiration of the lungs can occur which can lead to chemical pneumonia or asphyxiation. SECTION 5: Firefighting measures 5.1. Extinguishing media Suitable extinguishing media Dry powder, Foam, Water spray jet Non suitable extinguishing media Full water jet 5.2. Special hazards arising from the substance or mixture In case of combustion evolution of dangerous gases possible. 5.3. Advice for firefighters Special protective equipment for fire-fighting Do not inhale explosion and/or combustion gases. In case of combustion use a suitable breathing apparatus. Wear full protective suit. Other information Collect contaminated fire-fighting water separately, must not be discharged into the drains. Fire residues and contaminated fire-fighting water must be disposed of in accordance with the local regulations.

SECTION 6: Accidental release measures

neodisher Septo DN

Version: 4 / GB

Replaces Version: 3 / GB

Date revised: 13.04.2022

Print date: 14.04.22

6.1. Personal precautions, protective equipment and emergency procedures

Use breathing apparatus if exposed to vapours/dust/aerosol. Avoid contact with skin, eyes and clothing. Refer to protective measures listed in Sections 7 and 8.

6.2. Environmental precautions

Prevent spread over a wide area (e.g. by containment or oil barriers). Do not discharge into the drains/surface waters/groundwater. Do not discharge into the subsoil/soil. Retain and dispose of contaminated wash water. In case of gas escape or of entry into waterways, soil or drains, inform the responsible authorities.

6.3. Methods and material for containment and cleaning up

Pick up with absorbent material. Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations. Containers in which spilt substance has been collected must be adequately labelled. Dispose of absorbed material in accordance with the regulations.

6.4. Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling

Avoid formation of aerosols. Perform filling operations only at stations with exhaust ventilation facilities. Provide suitable exhaust ventilation at the processing machines. If workplace limits are exceeded, a respiratory protection approved for this particular job must be worn. Keep container tightly closed.

7.2. Conditions for safe storage, including any incompatibilities

Recommended storage temperature

Value > 0 < 30

Requirements for storage rooms and vessels

Keep in original packaging, tightly closed. Storage rooms must be properly ventilated. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Provide solvent-resistant and impermeable floor.

Hints on storage assembly

Do not store together with foodstuffs.

Storage classes

Storage class according to 8B TRGS 510

Non-combustible corrosive hazardous substances

°C

Further information on storage conditions

Keep under lock and key or accessible only to specialists or people who are authorized.

7.3. Specific end use(s)

no data

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Exposure limit values

glutaral				
List	EH40			
Туре	WEL			
Value	0.2	mg/m³	0.05	ppm(V)
Short term exposure limit	0.2	mg/m³	0.05	ppm(V)
Status: 2011		-		

neodisher Septo DN Print date: 14.04.22 Replaces Version: 3 / GB Date revised: 13.04.2022 Version: 4 / GB Other information There are not known any further control parameters. 8.2. Exposure controls General protective and hygiene measures Hold emergency shower available. Hold eve wash fountain available. Do not inhale gases/vapours/aerosols. Avoid contact with skin and eyes. Do not eat, drink or smoke during work time. Storage of foodstuffs in work rooms is forbidden. Wash hands before breaks and after work. Clean skin thoroughly after work; apply skin cream. **Respiratory protection** If workplace limits are exceeded, a respiratory protection approved for this particular job must be worn. Respiratory protection mask with combination filter A/P2 Hand protection Chemical resistant gloves Use Permanent hand contact Appropriate Material neoprene Material thickness >= 0,65 mm Breakthrough time 480 > Appropriate Material nitrile Material thickness 0.4 >= mm Breakthrough time > 480 min Appropriate Material butyl Material thickness >= 0.7 mm Breakthrough time 480 min Use Short-term hand contact **Appropriate Material** nitrile Material thickness 0,11 $\geq =$ mm Hand protection must comply with EN 374. Eye protection Safety glasses with side protection shield; Eye protection must comply with EN 166. **Body protection** Clothing as usual in the chemical industry. **SECTION 9: Physical and chemical properties** 9.1. Information on basic physical and chemical properties liquid Form light yellow, clear Colour characteristic Odour Odour threshold Remarks not determined pH value Value 4 appr. Temperature 20 °C Melting point Remarks not determined **Freezing point** Remarks not determined Initial boiling point and boiling range Remarks not determined
